

# GreenScreen® for Safer Chemicals Hazard Assessment Guidance

## Version 1.3(1e) (June 2016) – Revision List

This revision release of **GreenScreen® for Safer Chemicals Hazard Assessment Guidance (Guidance) v1.3(1e) (June 2016)** includes editorial changes which do not impact hazard classifications, List Translator scores, or Benchmark scores. When referencing the method version number in assessment reports, it is not necessary to include (1e). The following is a summary of changes between v1.3 and v1.3(1e).

### GreenScreen List Translator:

1. Updates to urls for GreenScreen Specified Lists.
2. Three GHS-[Country] lists have been designated as “Not required” for GreenScreen List Translator at this time due to difficulty in accessing the lists. Countries include Indonesia, Thailand and Taiwan.
3. Instructions for what hazard classifications to display in the hazard summary table have been revised in footnote 4.

### GreenScreen Hazard Criteria Revisions:

1. Updates to footnotes for CA Prop 65 (with qualifications) and GHS-[Country] lists were made. The new footnote provides updated instructions to “See GreenScreen List Translator, Specified Lists” for more information about these lists.

### GreenScreen Guidance Revisions:

1. Section 3 – references to specific revision dates for normative references have been deleted. Users should always refer to the latest resource versions.
